GOVERNMENT-WIDE ACQUISITION CONTRACTS FOR IT PROCUREMENT.

CIO-SP3 Small Business is a \$20 billion, 10-year, Government -Wide Acquisition Contract (GWAC) for IT services/solutions that can be used by any federal civilian or DoD agency to fulfill IT requirements and socioeconomic goals.

everything ITSM

Scope: CIO-SP3 Small Business covers **everything ITSM** including cloud computing, security/cybersecurity, data center consolidation, biomedical information services, health IT, imaging, mobility solutions, software development, enterprise data management, systems engineering, identity and access management, ERP IT infrastructure, workforce management, capital planning and investment, and more.

Quality: NITAAC contract holders are rigorously vetted prior to award so you are assured of the highest quality responses. An experienced team of Contracting Officers and IT Specialists are standing by to respond to your questions within 1 hour.

Ease: End-to-end management is easy with NITAAC's secure, web-based electronic-Government Ordering System (e-GOS), that automates delivery order competition, awardee selection and notification. The contracting process is completely controlled by your agency's procuring CO, who can easily add customized terms and conditions at the task order level.

Value: Best available ceiling rates are negotiated at the master contract level, and task order competition drives prices even lower. You also benefit from value-added services like complimentary requirement assessments returned within 24 hours, and free training worth two continuous learning points available on-site, in the classroom or via WebEx.

Speed: Streamlined ordering and procedures under FAR subpart 16.505 save your agency time, money and resources. Synopsizing or posting on FedBizOpps is not required. 8(a) competition allows for sole source awards without additional competition or justification under FAR Subpart 19.804-6 (b). Contract access fee not to exceed .75%. The contract is flexible in support of Agile development and CONUS/OCONUS procurements.

everything IT is a service mark of the National Institutes of Health Information Technology Acquisition and Assessment Center (NITAAC)® 2012. All rights reserved.
